Toei Animation and Crunchyroll announced today that beginning October 11th, the highly anticipated series ***Dragon Ball Super: Beerus*** will stream on Crunchyroll, the premier global destination for anime, offering fans an enhanced edition of the beloved Dragon Ball Super storyline.

The new series revisits the arrival of Beerus, the God of Destruction, and his fateful encounter with Goku and will feature both enhanced and all-new animation and visuals. Produced by Toei Animation, the legendary studio behind the Dragon Ball franchise, ***Dragon Ball Super: Beerus*** draws from Creator Akira Toriyama’s original story, character designs and creative vision.

Official Synopsis: Several years have passed since the fierce battle against Majin Buu, and Earth has finally regained a brief moment of peace. At the same time, Beerus, the God of Destruction, awakens from his long, deep sleep. Even Kai and Supreme Kai, aware of Beerus' overwhelming power to destroy entire planets, watch his awakening with great fear... Meanwhile, Beerus hears rumors of a Saiyan who defeated Frieza, and suddenly appears before Goku.

Targeted by Beerus, the strongest being in the universe, Earth is in grave danger. Thus begins an earth-shattering cosmic battle between the God of Destruction and Goku and his allies, a conflict that will shake the entire universe.

Dragon Ball Super: Beerus will stream with subtitles and be available on Crunchyroll in the United States, Canada, Latin America including Brazil, Australia, New Zealand, South Africa, India, Southeast Asia and Europe.
